

ZM-12M & ZM-15M

Semi-Modular Veterinary Monitor

User-friendly, high-resolution monitor offers superior performance

The ZM-12M Vet monitors represent cutting-edge innovation, making them the top choice for healthcare professionals who demand high performance and precision. These advanced, light-weight, and portable monitors are ideal for any clinical setting, available exclusively through Bizelp. They measure multiple vital parameters, including ECG (3 or 5 lead) with ST segment monitoring, respiration (RESP), pulse pressure (PP), dual temperature (optional), Masimo SpO₂ (optional), and NIBP. Additionally, configurations are available to measure capnography, dual-channel invasive blood pressure (IBP), and anesthetic agents (five agents with Auto ID, N₂O, FiO₂, and sidestream EtCO₂). For added convenience, the monitors also support an optional built-in thermal printer, making them highly versatile for a wide range of veterinary needs.

Features

Safety & Efficiency for Veterinary Monitoring

Two type 12.1"/15" High-Resolution Display

Up to 8 Waveforms

Lightweight – Less than 12 lb (4.5 kg)

Robust Standard Measurement Set Includes:

3 or 5-lead ECG, SpO2, NIBP, 2 IBP (optional), Respiration, Temperature HR/PR

Additional Plug-and-Play Modules Provide Expanded Parameters:

Invasive Blood Pressure

Mainstream or Sidestream CO2

Multi-Gas Measurement

Multiple Configurations Available:

Standard Parameters: ECG, HR/PR Temperature, NIBP, Respiration, SPO2

Optional Parameters: Invasive Blood Pressures, CO2 (Mainstream or Sidestream) and Built-in Anesthetic Agent Module

Comes with standard veterinary accessories

ZM-12M

12.1" Modular Monitor

ZM-15M

15" Modular Monitor
